Skills

- **Programming Languages:** C++, HTML, CSS, JavaScript
- **Web Development:** React, Material UI, Node.js, Express, MongoDB
- **Version Control:** Git, GitHub
- **Problem Solving:** Data Structures, Algorithms, OOP, REST API

Projects

Ecommerce Website

A full-fledged e-commerce website with features like user authentication, product listings, and shopping cart functionality. Implemented using React, Node.js, and MongoDB.

- Developed a user-friendly front-end with React and Material UI.
- Designed and implemented the back-end using Node.js and Express.
- Integrated MongoDB for efficient data storage.

Crypto App

A cryptocurrency tracking application that provides real-time price updates, historical data, and news articles for various cryptocurrencies. Built using React, Node.js, and external APIs.

- Designed a responsive user interface for tracking cryptocurrency prices.
- Implemented real-time data fetching from external APIs.
- Integrated news article fetching for the latest updates.

Personal Portfolio

My personal portfolio website showcasing my projects, skills, and contact information. Designed with a modern and clean UI using HTML, CSS, and JavaScript.

- Created an interactive portfolio with smooth navigation.
- Highlighted my skills and projects effectively.
